How to record a slideshow presentation using OBS Studio

STEP 1 : Installation

- Download OBS Studio from the official site :

https://obsproject.com/download

- Run the downloaded file
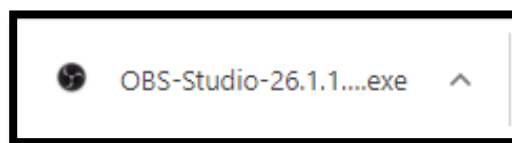

- Setup program will guide you through installation of OBS Studio by clicking 'next' and finally 'Install' button.

- After installation, close the window by clicking the "Finish" button and OBS will open automatically.

STEP 2 : OBS Interface

- We point out the main tools you need to develop your recording
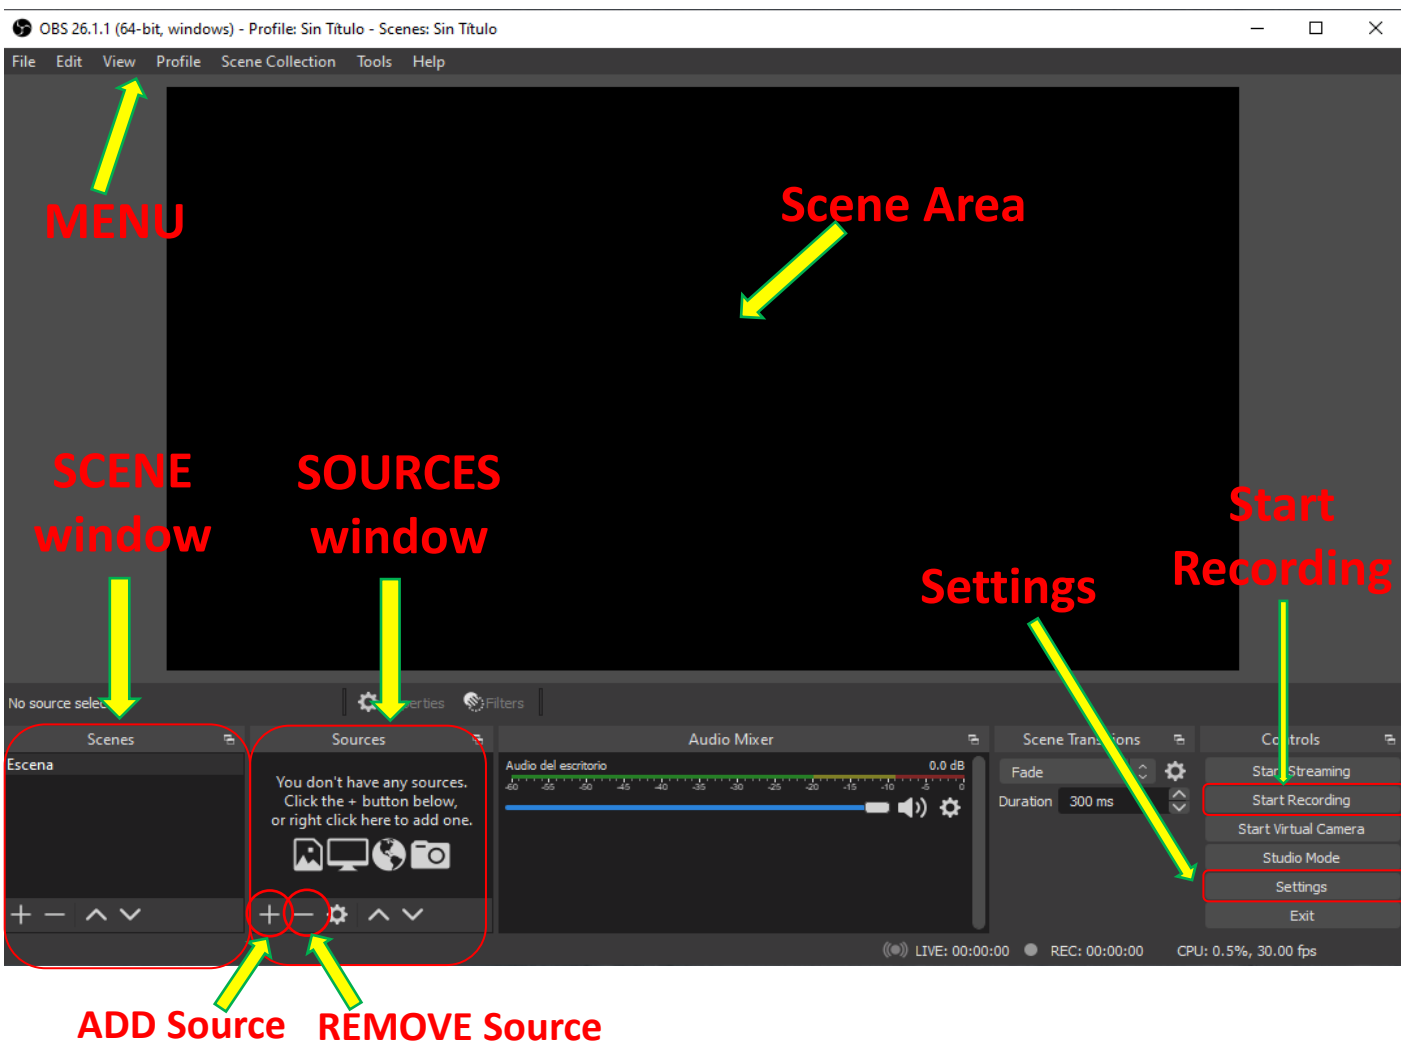

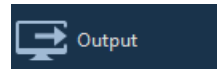

STEP 3 : OBS recording configuration

Steps for Recording Configuration:

1. **Before starting the OBS configuration:**
   a. **Connect your WebCam (if you've a webcam)**
   b. **Open your slideshow presentation**

2. **OBS configuration:**
   a. **Click on Settings** → **OutPut**

Settings

    Output

   b. **Recording settings**

   c. **Folder where the videos will be saved.**

Recording Path	C:\Users▊▊▊.Videos		Browse

   d. **Recording Quality → High Quality**

Recording Quality	High Quality, Medium File Size	⌄

   e. **Recording Format → MP4.**

Recording Format	mp4	⌄

   f. **Apply and Accept**

STEP 4 : Setting recording sources

Sources window:

1. Add **Sources** → ⊕ − ⚙ ∧ ∨

Always add this source

Always first

   a. **Add source** → 🎥 Video Capture Device
      Window capture → OK

Select your slideshow presentation software in 'window' list box:

Window [POWERPNT.EXE] : Abstract Guide English 23 Abril.pptx -

OK
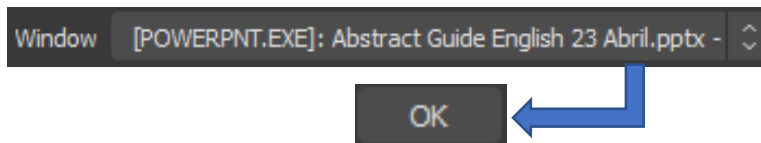

Only if you have a webcam device
Second

   b. **Add source** → 🗔 Window Capture
      Video capture device → OK

Select your webcam device in 'Device' list box:

Device DroidCam Source 3

OK
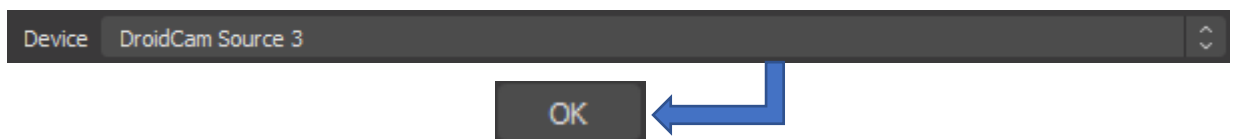

Respect the order when adding the different sources. If you do it the other way around, the webcam window will be hidden behind the slideshow window.

STEP 5 : Checking the scene and … Action!

Webcam window: You can resize it and place it wherever you want. We suggest you to set it on a corner, where it is not covering the slideshow presentation

Check that your slideshow presentation is behind the webcam window

**Check that the microphone signal is moving. Then your voice will be recording as well**

Are you ready? – Click on 'Start Recording'

Then minimize the OBS window and maximize the window of your slideshow.

You can then start speaking and passing slides. Everything is being recorded!

STEP 6 : Where is my video?

You have finished?

Then minimize the slideshow window and maximize the OBS window and...

Click on 'Stop Recording'

Your recording will have been saved in the folder you selected in step 3 section 2.C. of this manual

10 International ProGEO Symposium

7ᵀᴴ - 10ᵀᴴ JUNE 2021
